Just Keys and Standard Piano Tool Box

The Just Keys tool box contains many specialized piano tools. In the tool box from left to right: action and keyboard regulation pliers, a grand piano hammer removing pliers, a tuning hammer extension, and a rosewood-handle tuning hammer. Below from left to right: a brown corduroy tool roll filled with action regulation tools, a center pin case and center pin tool, a piano hammer voicing tool, and a collection of stringing tools. To avoid clutter, numerous small and large tools — including felt and rubber tuning mutes — do not appear in this photo.
